Langdon Public Library.

To the Citizens of Newington:

The Library Trustees herewith submit the thirty-sixth annual report, with financial statement and the Librarian's report for the year ending December 31, 1927.

We trust the work has been carried on in a manner satisfactory to all. During the Summer the Library was open each Wednesday afternoon and evening from 2 to 9 P. M. The remainder of the year Wednesday from 12 to 5 P. M. and throughout the year on Saturday from 2 to 5 P. M.

It is to be regretted that there are some who rarely visit the Library, we would urge them and invite all to make more use of this splendid institution and feel sure they will derive both pleasure and profit.

The circulation of books shows quite an increase over last year. One hundred and seventy seven volumes have been purchased in addition to gifts.

We are pleased to report the continued interest on the part of the school children and a fine cooperation with teachers and pupils.

The reading table furnishes a good collection of periodicals and we hope every one will feel free to make the most of them.

The Nature table continues to interest old and young and we are grateful to all who furnish specimens.

We hope to have special features provided from time to time with some reference to Library interests, this need involve no expense. Something along this line has been accomplished the past year. During Health Week Miss Piper, the Portsmouth District Nurse gave a very interesting and instructive lecture. An address was given to the young people by Wesley Packard, his subject was "The Value of an Education." Magazine Night was also observed, the ladies telling what magazine had been the most helpful and in what way.

Our Librarian has been most faithful in her work

and we wish to express our appreciation for all her efforts in making our duties less difficult. And our gratitude and thanks to all who have helped by attendance, gifts or kind suggestions.

Report of Superintendent of Schools.

To the School Board of Newington:

I hereby submit to you my third annual report as superintendent of the Newington schools.

Agreeably to the vote of the annual school meeting the grading of the school grounds was accomplished during the summer vacation. This has caused a great improvement in the appearance of the school plant.

At the close of the school year in June the number of pupils in the eight grades had fallen to forty-nine. Owing to this small number of pupils it was deemed advisable to employ for the year beginning in Sept. 1927 two teachers instead of three. Each teacher therefore was assigned four grades.

Miss Margaret Pickering continued as primary teacher and had the first four grades. To take charge of the four upper grades we secured the services of Miss Nellie A. Abbott. Both of these teachers have labored hard and efficiently for the advancement of our schools.

When school opened in September instead of forty-nine as in the spring we had sixty-two pupils. This number has not fallen below 60 during the year and is now sixty-three. This large increase in numbers has increased the work to be done by the teachers. Because of this extra work you wisely increased the pay of the teachers for this year.

Where such a large proportion of the pupils are obliged on account of the distance they live from the school building to bring their noon lunch and eat it at the school building it seems decidedly advisable that a hot lunch be served at noon. I recommend that for the coming year some one teacher be definitely assigned to this work.

We have improved the available equipment by the purchase of a new sewing machine. The tools were also put into first class shape.

As last year, the greatest obstacle to good work in our schools has been the lack of regular and punctual attendance. To be sure a large majority of Newington pupils live a long distance from the school building, but cooperation on the part of all parents could remedy this situation

as some of the pupils who live the farthest away are the most regular and punctual in attendance.

Mrs. Poore has continued her excellent work with the music.

In order to give our children the right sort and amount of training in our schools I ask that every parent in Newington co-operate with us by sending their children to school regularly and punctually, with clean bodies and clean clothes, and, in so far as the influence of the parent can make it, with the right attitude toward the school and the teachers. The parents should also endeavor by furnishing the necessary amount of clothing for the children and by wise care over their habits, seek to avoid preventable illness on the part of the pupils. A school nurse would be of great assistance in this respect.

I assure you of our interest in the welfare of your boys and girls.

Respectfully submitted,

CHARLES N. PERKINS,

Superintendent.

Newington, N. H., Feb. 15, 1928.

School Report.

To the Citizens of the School District of Newington:

We herewith submit our annual report of the Newington School Board.

Owing to the marked decrease in the number of pupils attending school as compared with the number during the war, it was thought advisable by the School Board and Superintendent to cut down the teaching force to two teachers.

Miss Margaret Pickering has charge of the first four grades and we find her very efficient and doing excellent work with the children.

For the other four grades we are very fortunate to have Miss Nellie A. Abbott in charge, teaching domestic science and manual training along with the other subjects.

Although having less time to give to each subject, we feel that the teachers are obtaining fine results.

Miss Mary E. Poore has again had the supervision of music and has done splendid work, instilling into the children the enthusiasm and joy in their music which she herself has.

Mr. Perkins our superintendent is with us again this year. We find him very agreeable and interested in his work, getting along harmoniously with the teachers.

We wish more of our townspeople would visit our schools and become familiar with every phase of the school work, also take note of the inefficient working of our heating and ventilating system.

The heating and ventilating system of our new school not having worked efficiently since its installation, the School Board decided recently, that something should be done, and so had an engineer come and inspect the school plant, he has made his report, and we are putting an article in the School warrant to take care of putting the heating and ventilating system in proper shape. Hoping that it may be done sometime during the coming summer.

Respectfully submitted,

MAURICE E. ROBINSON,
